

SAFETY DATA SHEET

1. IDENTIFICATION OF THE SUBSTANCE OR PREPARATION

Identification of the substance or preparation

Product: GEL ANTIBACTERIAL HAND SANITIZER

Identification of the company or company

Name: AMENI GROUP S.A.S
Telephone: 57- 44449553
Direction: Street 76 #48-25
City: Itagüi- Antioquia
country: Colombia

2. COMPOSITION / INFORMATION ON COMPONENTS

Water (Aqua), Alcohol (70%), Parfum (Fragrance), Glycerin, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Aloe Barbadensis Leaf Extract, Avena Sativa Kernel Extract, PEG-40 Hydrogenated Castor Oil, Tocopherol Acetate.

3. HAZARD IDENTIFICATION

The product is classified as flammable category 3
Eye irritation

4. FIRST AID

IF IN EYES: Rinse thoroughly with water for several minutes. Remove contact lenses when they are present and can be done easily. Continue washing. If eye irritation persists, see a doctor. In case of fire: Use dry sand, dry chemical or alcohol resistant foam to extinguish it. After inhalation: Not applicable

After skin contact: Flush with water

After ingestion: Rinse mouth. Consult a doctor if symptoms appear.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media: Use extinguishing measures that are appropriate to local and surrounding circumstances.

Unsuitable extinguishing agents: High volume water jet

Specific hazards during fire fighting: Fire Hazard

Keep away from heat and sources of ignition.

The return of the flame at a considerable distance is possible.

Be careful with the vapors that accumulate, thus forming explosive concentrations. Vapors can accumulate in the lower areas.

Hazardous Combustion Products: Carbon Oxides

Special protective equipment for firefighters: Use personal protective equipment.

Specific extinguishing methods: Use water spray to cool closed containers. The remains of the fire, as well as the contaminated extinguishing water, must be disposed of according to local regulations in

Personal protective equipment for firefighting: Adequate protective clothing with artificial respiration system and independent of the environment.

6. MEASURES TO BE TAKEN IN CASE OF ACCIDENTAL SPILL

Personal precautions: Remove all sources of ignition. Ensure cleaning is carried out

SAFETY DATA SHEET ANTIBACTERIAL GEL protective equipment and procedures

Emergency carried out only by trained personnel. Consult the protection measures in the lists in sections 7 and 8.

Environmental precautions: Do not allow contact with soil, surface or water underground.

Methods and materials for containment and cleaning up: Eliminate all sources of ignition if it can be done without risk.

Stop leak if it can be done without risk. Contain and collect spill with non-combustible absorbent material (eg sand, earth, diatomaceous earth, vermiculite), and place in a container for disposal in accordance with local regulations and national (see section 13). Remove traces with water. For large spills, contain spilled material or else contain the material to ensure the leak does not reach a water channel.

7. HANDLING AND STORAGE

Tips for safe handling: Take the necessary actions to avoid static electricity discharges (which could cause inflammation of the organic vapors). Keep away from fire, sparks and hot surfaces.

Conditions for safe storage: Keep away from heat and sources of ignition.

Keep it in a cool, well-ventilated place. Keep away from oxidizing agents. Keep out of the reach of children.

Keep container tightly closed. Store in suitable labeled containers.

Storage temperature: 0 °C a 35 °C.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Specific control parameters: Not available.

Personal protection:

Protection Hands	Respiratory protection	Eyes Protection
No special protective equipment is required	No special protective equipment is required No special protective equipment is required	No special protective equipment is required

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state:	Gel
Appearance:	Gel
Color:	Characteristic according to standard
p.H:	6.00 – 7.00
Viscosity:	1.000 – 20.000 cPs
Specific Gravity:	0.8000 – 1.1000 g/ml
Melting point / Freezing point:	-140 °C
Starting point and boiling range:	78 °C a 1.013 hPa
Flashpoint:	19 °C
Evaporation rate:	No information available.
Inflammability:	The product is flammable
Auto-ignition temperature:	423 °C

10. STABILITY AND REACTIVITY

Chemical Stability: It is stable under normal storage conditions.

Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.

Conditions to avoid: Heat, flames and sparks.

11. TOXICOLOGICAL INFORMATION:

It has no danger.

Potential Health Effects Eyes: Causes serious eye irritation.

12. ECOLOGICAL INFORMATION:

Environmental Effects: Harmful to aquatic organisms.

13. CONDITIONS CONCERNING DISPOSAL

Do not pour the pure product into the public drainage system, nor into the rivers.

In the event of a spill, collect with absorbent paper and dispose of it as ordinary and inert waste.

14. TRANSPORT INFORMATION

The shipper / consignee / shipper is responsible for ensuring that the packaging, labeling and marking is in accordance with the selected mode of transportation.

Ground transportation (DOT)

UN number: 1170

Products Description: Ethanol Solution

Class: 3

Packing group: III Peligroso para el medio ambiente: no

Sea transport (IMDG / IMO)

UN number: 1170

Products Description: Ethanol Solution

Class: 3

Packing group: III Marine pollutant: no

15. REGULATORY INFORMATION

Decree 1609 of July 31, 2002, which regulates the automotive land transport and handling of dangerous goods by road.

Law 769 of August 6, 2002 national traffic code.
